

Potain - Evolution of the MC 205B (zjG Range)

Product Flash - Ref. : 104 2012 17 EN

27/04/2012

The MC 205B has evolved to make it better and easier for erection and dismantling

- Two 5m jib sections are combined into one 10m jib section as standard. The possible jib lengths of the crane remain unchanged from 30m to 60m with 5m increment.
- Offer SM/DM trolley as option, 2C trolley remains as standard.

Orders for SM/DM trolley option may be placed from now on and the price lists have been updated. The cranes manufactured from May, 2012 will be shipped with the above combined 10m jib section. Check with the factory for the exact shipment date.
