Illustrations shown may include optional equipment and accessories and may not include all standard equipment.

Grove crane range

Pocket guide

ASME B30.5
Imperial/Metric

Crane Range

> Rough-terrain cranes

Grove rough-terrain cranes are designed to handle tough job site conditions. Inverted outrigger jacks, compact dimensions and four steering modes allow easy setup and on-site maneuvering.

> Truck cranes

Grove truck cranes feature quick set-up, long reach, high capacity booms and highway speed travel capabilities. A front stabilizer is standard for 360° operation.

> Telescoping crawler

The GHC series combines excellent gradeability and lift capacity with 100 percent pick and carry capability. Engineered for exceptional maneuverability, with rugged, heavy-duty crawler tracks and telescoping boom.

> Carrydeck cranes

Grove carrydeck cranes are perfect for plant maintenance and material handling jobs. Multi-mode steering and tight dimensions deliver easy maneuverability.

> All-terrain cranes

Grove all-terrains combine truck crane highway speeds with the off-road performance characteristics of our MEGATRAK™ suspension. Travel speeds up to 55 mph (85 km/h) get you to the job quickly.

> Special Applications

Grove continues to design and manufacture specialized military cranes for demanding schedules and ever changing environments. Whether a mission requires an all-terrain, rough-terrain, or carrydeck crane, Grove has the solution.
