

Products for maintenance

Selected, tested and adapted to the Potain cranes

To increase the service life of your equipment, Manitowoc recommends the use of these products for routine and regular maintenance.

Greases

Standard quality for slewing ring bearings G2 type:			Symbol
E-01032-51*	Cartridge 400 g	H-01032-54	○
	Screw cartridge 400 g	84066032	
	Can 5 kg	G-01032-53	
High-quality for slewing ring bearings GM type:			
T-61032-74*	Cartridge 400 g	J-61032-65	◊
	Screw cartridge 400 g	84066033	
	Can 20 kg	U-61032-75	
Aerosol for slewing ring gears and teeth P type:			
P-01032-60*	Aerosol 400 ml	S-01032-63	◊
Specially selected for fish joints by pins ATD type:			
N-61032-23*	Can 1 kg	T-61032-05	◼
	Can 5 kg	84066107	
Specially selected for topping up grease in reducer gear S00 type:			
H-12032-52*	Tube 250 g	82016145	●
	Can 5 kg	J-12032-53	
	Can 50 kg	K-12032-54	
Specially selected for topping up grease in reducer gear G0 type:			
K-12032-08*	Can 1 kg	L-12032-32	▼
	Can 18 kg	P-12032-12	
Grease for crane-driver lift electric cables:			
TCL	Tube 100 g	84055311	
Grease for crane-driver lift pinions and racks:			
TCL	Cartridge 400 g	84055312
